STRICTELY CONFIDENTIAL TRONICO

1 INSTALLATION

Application is compatible with Windows 10 only.

1.1 First installation

Before installing setup, the following components shall be installed:
- USB CAN NI-8473 Probe driver: https://www.ni.com/fr-fr/support/downloads/drivers/download.ni-can.html#344641. Execute NICAN1850.exe and keep default configuration during installation process.

- PCAN-USB probe from peak-system: https://www.peak-system.com/PCAN-USB.199.0.html?&L=2. Execute PeakOemDrv.exe and keep default configuration during installation process.

Then install HMI by executing Tame Power HMI Setup.exe and follow instructions.

1.2 Version Update

Install HMI by executing Tame Power HMI Setup.exe and follow instructions. Installation will replace the previous one.
